

POWER UP... AND PUT SOME LIGHT ON THE SUBJECT

Here's a fitting touch to your workplace...a fluorescent, overhead work light and a power bar. Both are custom designed for use on Hubbell Workplace Solutions workstations. **Light** has adjustable mounting brackets and uses two 48" fluorescent T8 lamps (included). **Power Bar** is available in two lengths; 36" with six grounded outlets and 60" with ten outlets. Both feature on/off switch and circuit breaker with reset button. Available with or without mounting bar. Light includes 10' cord and power bar includes 6' cord with standard 110 volt grounded plugs.

NEW, IMPROVED LIGHT. ALL THESE FEATURES AT NO INCREASE IN PRICE.

- Parabolic louver...directs light toward work area, away from eyes
- Polycarbonate safety tubes protect lamps, increase safety and prevent contamination if lamp breaks.
- Rotary locking lamp holders accept two T8 lamps.
- Custom brackets allow two mounting options.
- Light tilts 15° fore or aft. Allows you to direct light where needed.
- Blacked-out side lens minimizes stray light.

PARABOLIC LOUVER

Provides pleasing, glare-free illumination on work area....
Helps to reduce eye strain.

Light fixture may be tilted 15° fore or aft.

Power Bar clamps to steel or aluminum rail...provides handy outlets for electric tools, light, etc.

Adjustable mounting brackets clamp to C-rail. Also includes hardware for mounting to tool rail running parallel to light.

Easily removable lens allows quick fluorescent lamp replacement.

Brackets hold Power Bar securely to mounting bar. Extra brackets may be added, if desired.
