## • TROLLEY INSTALLATION •

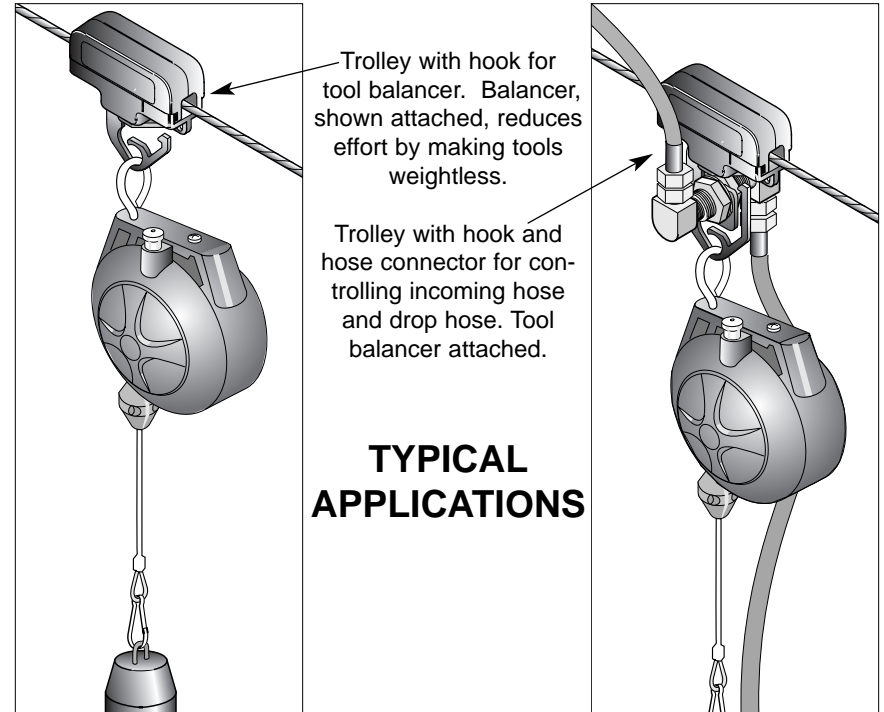

**To install trolley** – Place top section in position on wire rope. Slide sections together until they snap (lock) in place.  
**NOTE: Sections can be assembled in only one way. Slide "un-blocked" end into "un-blocked" end. Do not force.**

Trolleys fit wire rope, rod or thick wall tube up to and including 0.375"(9mm) O.D.

Labyrinth tool hook.

**To remove** – Insert straight bladed screw driver into slot beside cable opening (not slit on side of trolley) and pry gently as shown above. Do not turn screwdriver. **Slide Apart.**

Trolley with hook for tool balancer. Balancer, shown attached, reduces effort by making tools weightless.

Trolley with hook and hose connector for controlling incoming hose and drop hose. Tool balancer attached.
