

# NO KIT TO FIT? SO MAKE ONE. FOR EXAMPLE...

Workstation kits in the catalog stop at 6' width. But, you don't have to stop there. When your customer has benches wider than 6', put together your own design using components from the **ECONOLINE WS** catalog. Shown here are the components used to assemble a workstation for use on an **8' to 9' wide** bench. A similar procedure would be used for other bench sizes.

### BILL OF MATERIALS

QTY.	DESCRIPTION	MODEL NO.
2	5 ft. WS50 Rail	WS50-T05
2	Angle Bracket	WS-AB
2	3 ft. WS50 Rail	WS50-T03
