

PLACE 'n PICK™ SHELF CART

NOW AVAILABLE IN VARIETY OF WIDTHS, DEPTHS

Do you ever need five or six foot wide* shelves on a mobile unit? Or, 18" deep shelves? Perhaps two shelves and a Bin Bar... or six Bin Bars, three on each side? How about adding a Power Bar for electrical power or a Manifold for air? Use your imagination.

Now it's possible to construct a Mobile Shelf Cart to exactly fill your requirements. Pick either the complete kit (HWP-SCxx) which includes three 12" x 30", 42", 54", or 66" shelves, aluminum frame, cover strip for the slots, four swivel casters, and all hardware... or choose the size frame that will fit your needs and equip it with either 12" or 18" deep shelves and any of numerous workstation accessories.

The basic frames, available in 3', 4', 5' and 6' widths*, are constructed of sturdy aluminum with heavy steel brackets. All assembly hardware is included. Shelves, which must be ordered to fit cart width, may be either 12" or 18" deep. Other standard accessories such as Bin Bars, Power Bars, and manifolds are easily added to the frame. Cover strip is not included with the frame kits but may be ordered separately. Bin boxes are **not** included. Below is a list of most components, including prices.

*NOTE: Nominal dimensions. Actual shelf width between uprights is 6" less than nominal over all cart width; i.e., 6' wide unit has 66" wide shelves.

Shelf Cart with Bin Boxes
(Boxes not included)
