Rugged, dependable and trouble free, these reels are designed for general shop use. They can be mounted wherever most convenient; on carts, walls, poles, or ceilings. They offer safety, easy mobility and maximum efficiency. A slight tug on the hoses releases the ratchet and the hoses are automatically retrieved onto the reel where they are out of the way, off the floor, and safe from accidental damage.

Features include:

- Rugged “UH” frame design
- All steel construction
- Prelubricated ball bearings throughout
- Hose guide with rollers
- Baked polyester finish
- Full unimpeded gas flow
- Color coded swivels
- Holding ratchet

Series UH Hose Reels
Dual Hose - Oxygen/Acetylene
