The **MOUSE PAD TRAY** is attached to the keyboard support brackets beneath the computer tray. If keyboard tray brackets do not have holes for pad tray, drill two .281 diameter holes in each bracket. Refer to Figure 2, below, for hole location.

**ASSEMBLY**

Refer to illustrations on this page to aid in assembly.

1. If holes are not provided in brackets, drill per diagram below.

2. Position mouse pad tray as shown (Fig 1) with hanger brackets on pad tray to outside of keyboard support brackets.

3. Attach mouse pad tray using 1/4 x 1/2” bolts, flat washers and lock nuts.
